

VENKATA PAVAN KUMAR PASUMARTHI

STAFF FRONTEND ENGINEER | FRONTEND ARCHITECT | DIGITAL PLATFORMS

Hyderabad, Telangana, India | +91 8686889736 | pasumarthi.kumar@gmail.com | LinkedIn

PROFESSIONAL SUMMARY

Staff-level frontend engineer with 13 years of experience architecting enterprise digital platforms across React, JavaScript, ServiceNow, and SAP CPQ. Combines hands-on UI architecture with cross-team technical leadership, delivering measurable gains including 50% lower application latency, 30% faster page loads, 25% growth in mobile traffic, and 50% less manual presales effort through GenAI automation. Experienced in headless architecture, frontend performance, accessible design systems, automated testing, and translating complex product requirements into scalable platform capabilities.

CORE EXPERTISE

Frontend architecture: React, JavaScript ES6+, Node.js, HTML5, CSS3, micro-frontends, headless architecture, responsive UI

Platform engineering: ServiceNow, UI Builder, GlideScript, SAP CPQ APIs, Threekit 3D, Builder.io, Watson Discovery/NLP

Engineering quality: Performance optimization, Jest, CodeceptJS, WCAG accessibility, Lighthouse, CI/CD automation

AI-enabled delivery: GenAI accelerators, ServiceNow Build Agents, prompt engineering, Cursor, Claude, Windsurf

Technical leadership: Architecture reviews, engineering standards, mentoring, cross-functional delivery, RFP solutioning

PROFESSIONAL EXPERIENCE

Staff Software Engineer - IC4 | ServiceNow *Sep 2025 - Aug 2026*

- Led a 10-member Digital Technology engineering team delivering high-availability applications for ServiceNow's enterprise Commit to Consume program.
- Architected customer onboarding, assisted-checkout, and real-time consumption and coverage dashboards that improved program adoption and customer-engagement visibility.
- Partnered with product and enterprise architecture leaders to strengthen platform security, operational efficiency, and application responsiveness.
- Integrated AI-driven automation across presales, sales, and post-sales journeys, reducing operational friction and manual oversight.

Senior Consultant / UI Lead | Deloitte Digital *Jun 2021 - Sep 2025*

- Directed UI engineering for enterprise SAP CPQ modernization programs, providing architecture leadership, code reviews, and mentorship to a 15-member team.
- Architected a scalable headless CPQ frontend using React, SAP CPQ APIs, and Threekit 3D visualization for dynamic configuration, pricing, and renewals.
- Reduced application latency by 50% and page-load time by 30% through frontend performance tuning and bundle optimization.
- Increased mobile traffic by 25% by leading mobile-first responsive architecture and WCAG-aligned UI modernization.
- Engineered GenAI quote-creation accelerators that reduced manual presales effort by 50% across complex CPQ workflows.
- Built a custom Figma plugin and design-to-code pipeline that automated design-token generation and streamlined designer-to-developer handoffs.
- Established engineering quality standards with Jest unit tests, CodeceptJS end-to-end tests, and automated Jira/Git delivery reporting.
- Shaped technical approaches for enterprise RFPs, authored proposals, and presented solution architecture to prospective clients.

Consultant | Deloitte Digital *Jun 2017 - Jun 2021*

- Delivered responsive enterprise web platforms for SAP-focused clients across the full software development lifecycle.
- Performed web-performance audits and implemented optimization strategies that improved end-user responsiveness.
- Used behavioral analytics and customer feedback to guide continuous UI and functional improvements.

Technology Analyst | Infosys *Jul 2016 - May 2017*

- Managed end-to-end SDLC and deployment activities for multiple enterprise e-commerce applications.
- Converted business requirements into user stories, technical delivery roadmaps, and sprint plans.

System Engineer | Tata Consultancy Services (TCS) *Sep 2012 - Jun 2016*

- Contributed to requirements analysis, frontend development, and delivery of enterprise web applications.
- Developed responsive interfaces with JavaScript, HTML, and CSS and used pair programming to improve code quality.

CERTIFICATIONS & RECOGNITION

- ServiceNow Certified System Administrator (CSA) | Graph Developer - Professional | Graph Developer - Associate
- Recipient of multiple organizational performance awards across ServiceNow, Deloitte, and Infosys.

EDUCATION

Bachelor of Technology (B.Tech), Computer Science & Engineering | SASTRA University | 2008 - 2012
